Work History

February 2016 – Present
TYPO3 Full Stack Developer | **Satvam Softwares Pvt. Ltd. |** Bengaluru, Karnataka

- Converted PSD designs into responsive, cross-browser compatible user interfaces using HTML, CSS, JavaScript, and jQuery.
- Developed and maintained enterprise-level TYPO3 websites, including custom extension development and third-party API integrations (Google, Facebook).
- Built custom TYPO3 extensions for external API integration and dynamic content rendering using Extbase and Fluid.
- Managed TYPO3 version upgrades, crawler configuration, indexed_search setup, and PDF indexing.
- Developed Laravel modules for user & role management with role-based access control (RBAC).
- Built CRUD applications in Laravel using Blade views, Eloquent ORM, and database migrations.
- Basic exposure to Vue.js through partial frontend module development in one project.
